

BIZZARTO
outdoor&indoor

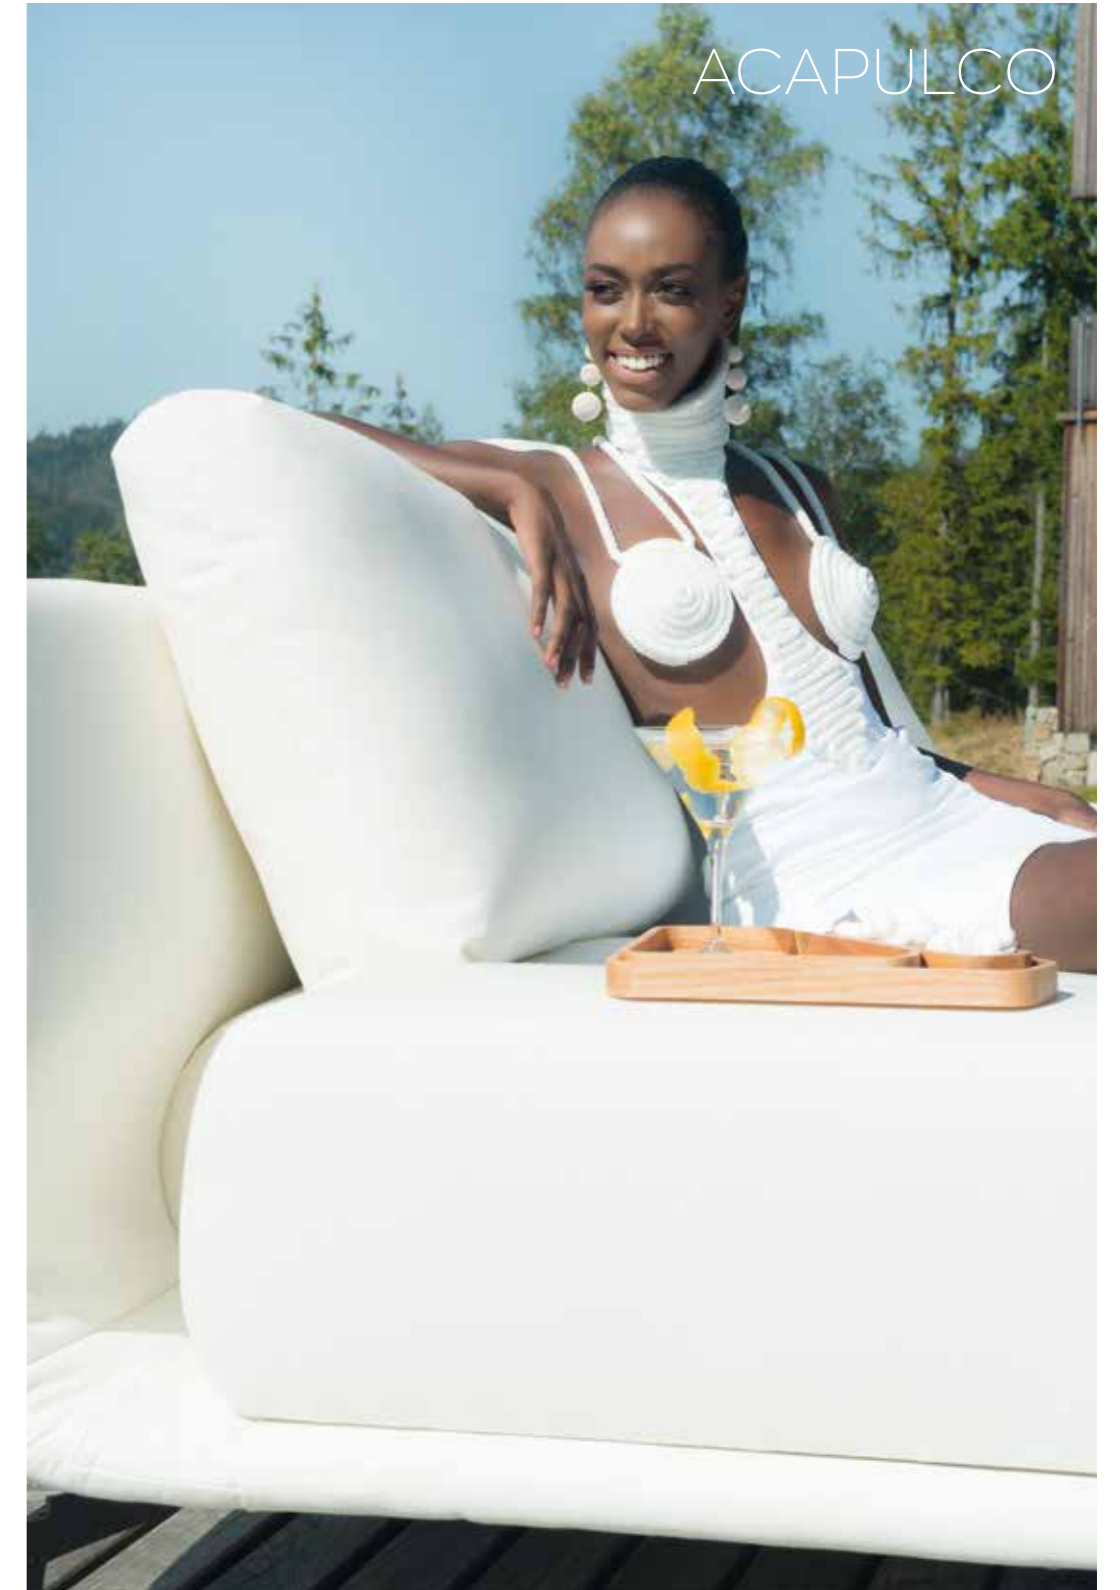

OUTDOOR-INDOOR COLLECTIONS

They love to stay outdoors all year round. Day and night. In the sun and during rainy weather. But if you prefer to have them at home, go ahead! They will work just as well in any interior. Furniture that is comfortable just like that in the living room can now be invited to your garden, terrace or patio. What's more, this furniture can go back to the living room whenever you feel like it. Learn more about the outdoor-indoor collections.

ACAPULCO

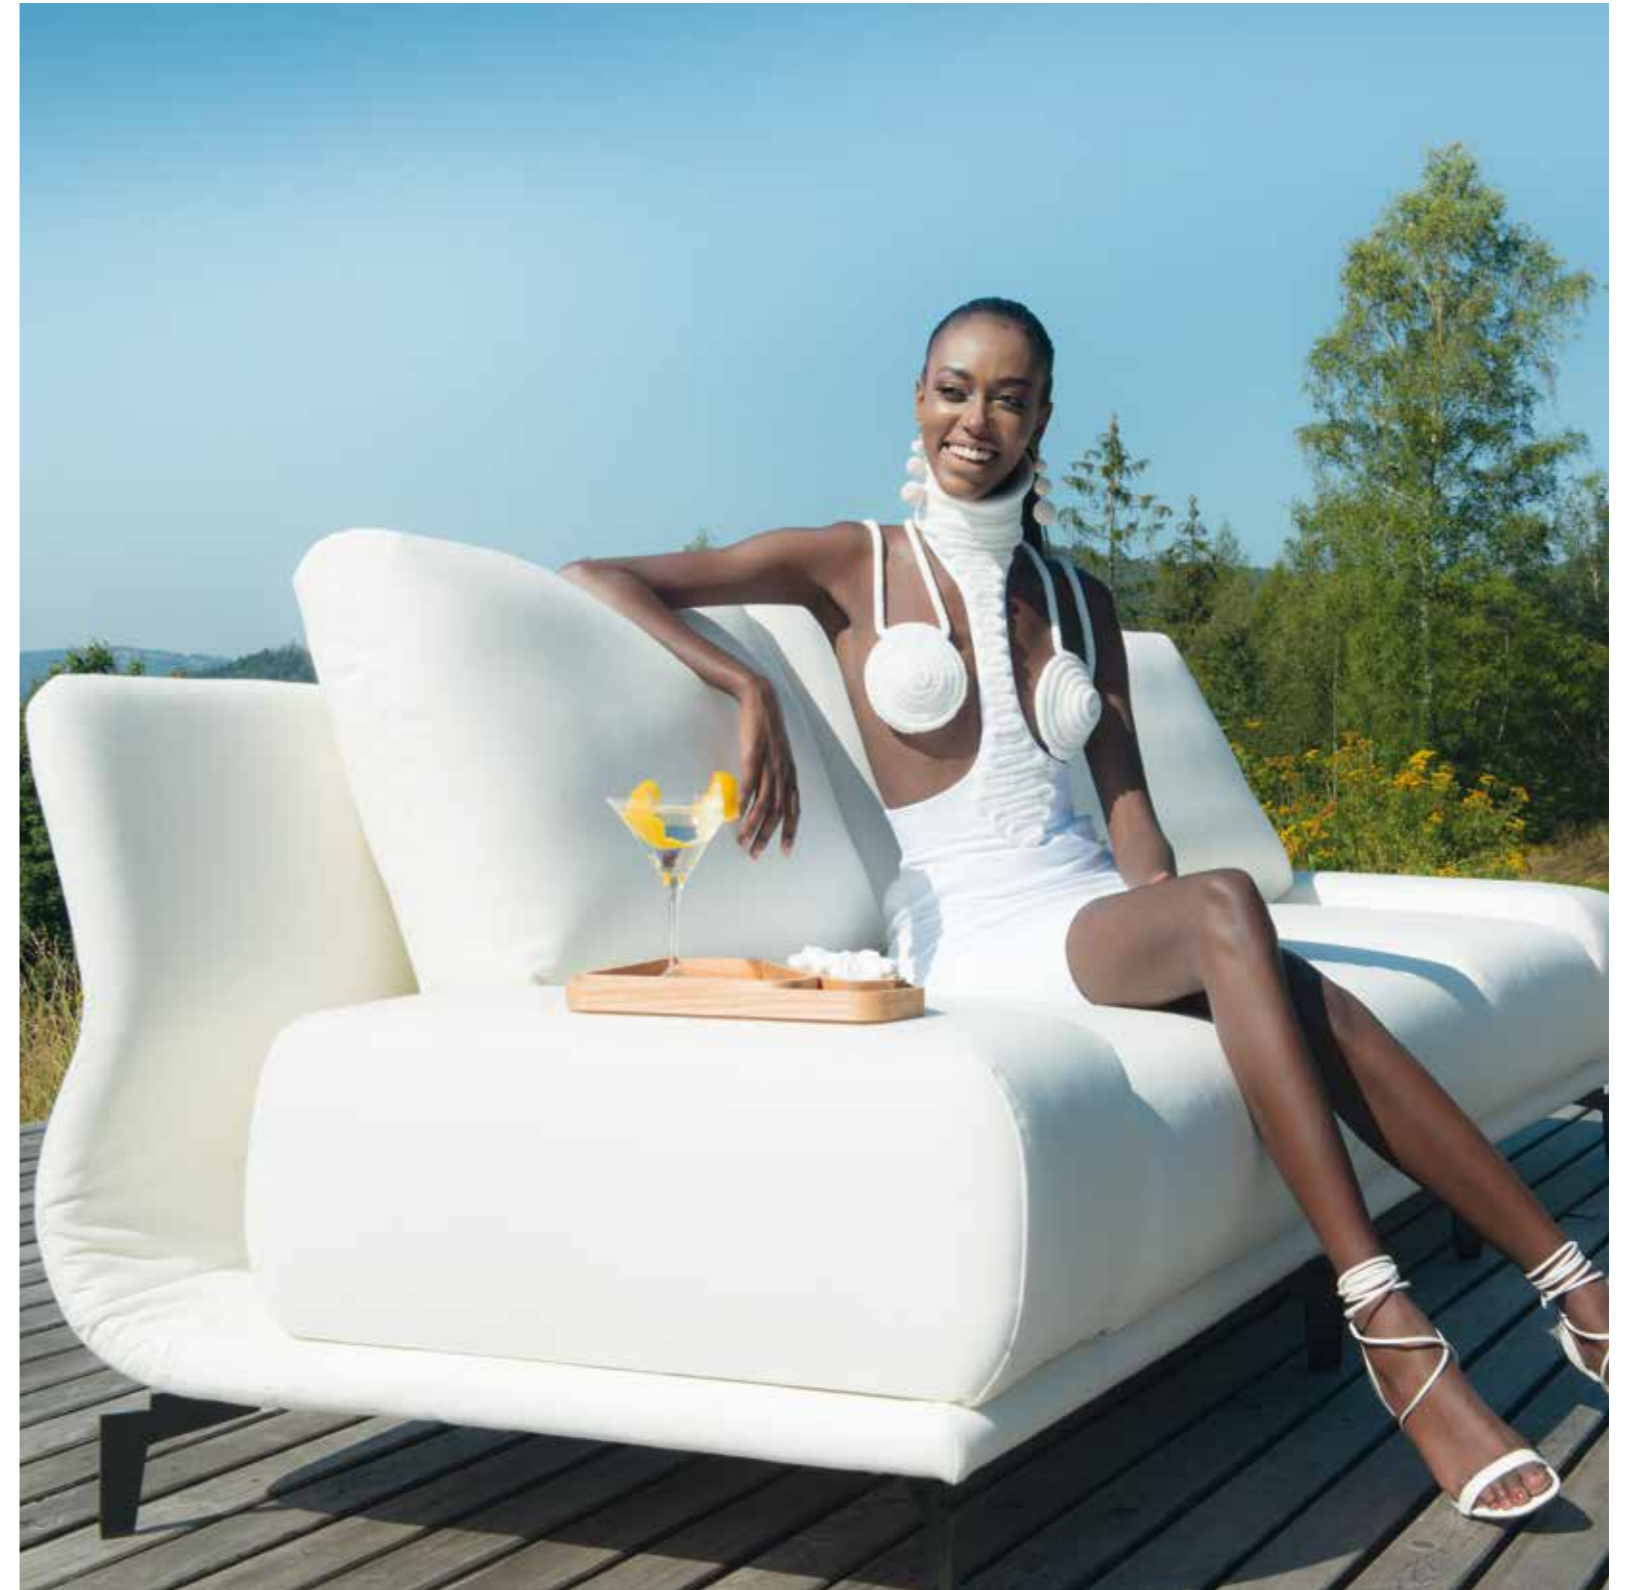

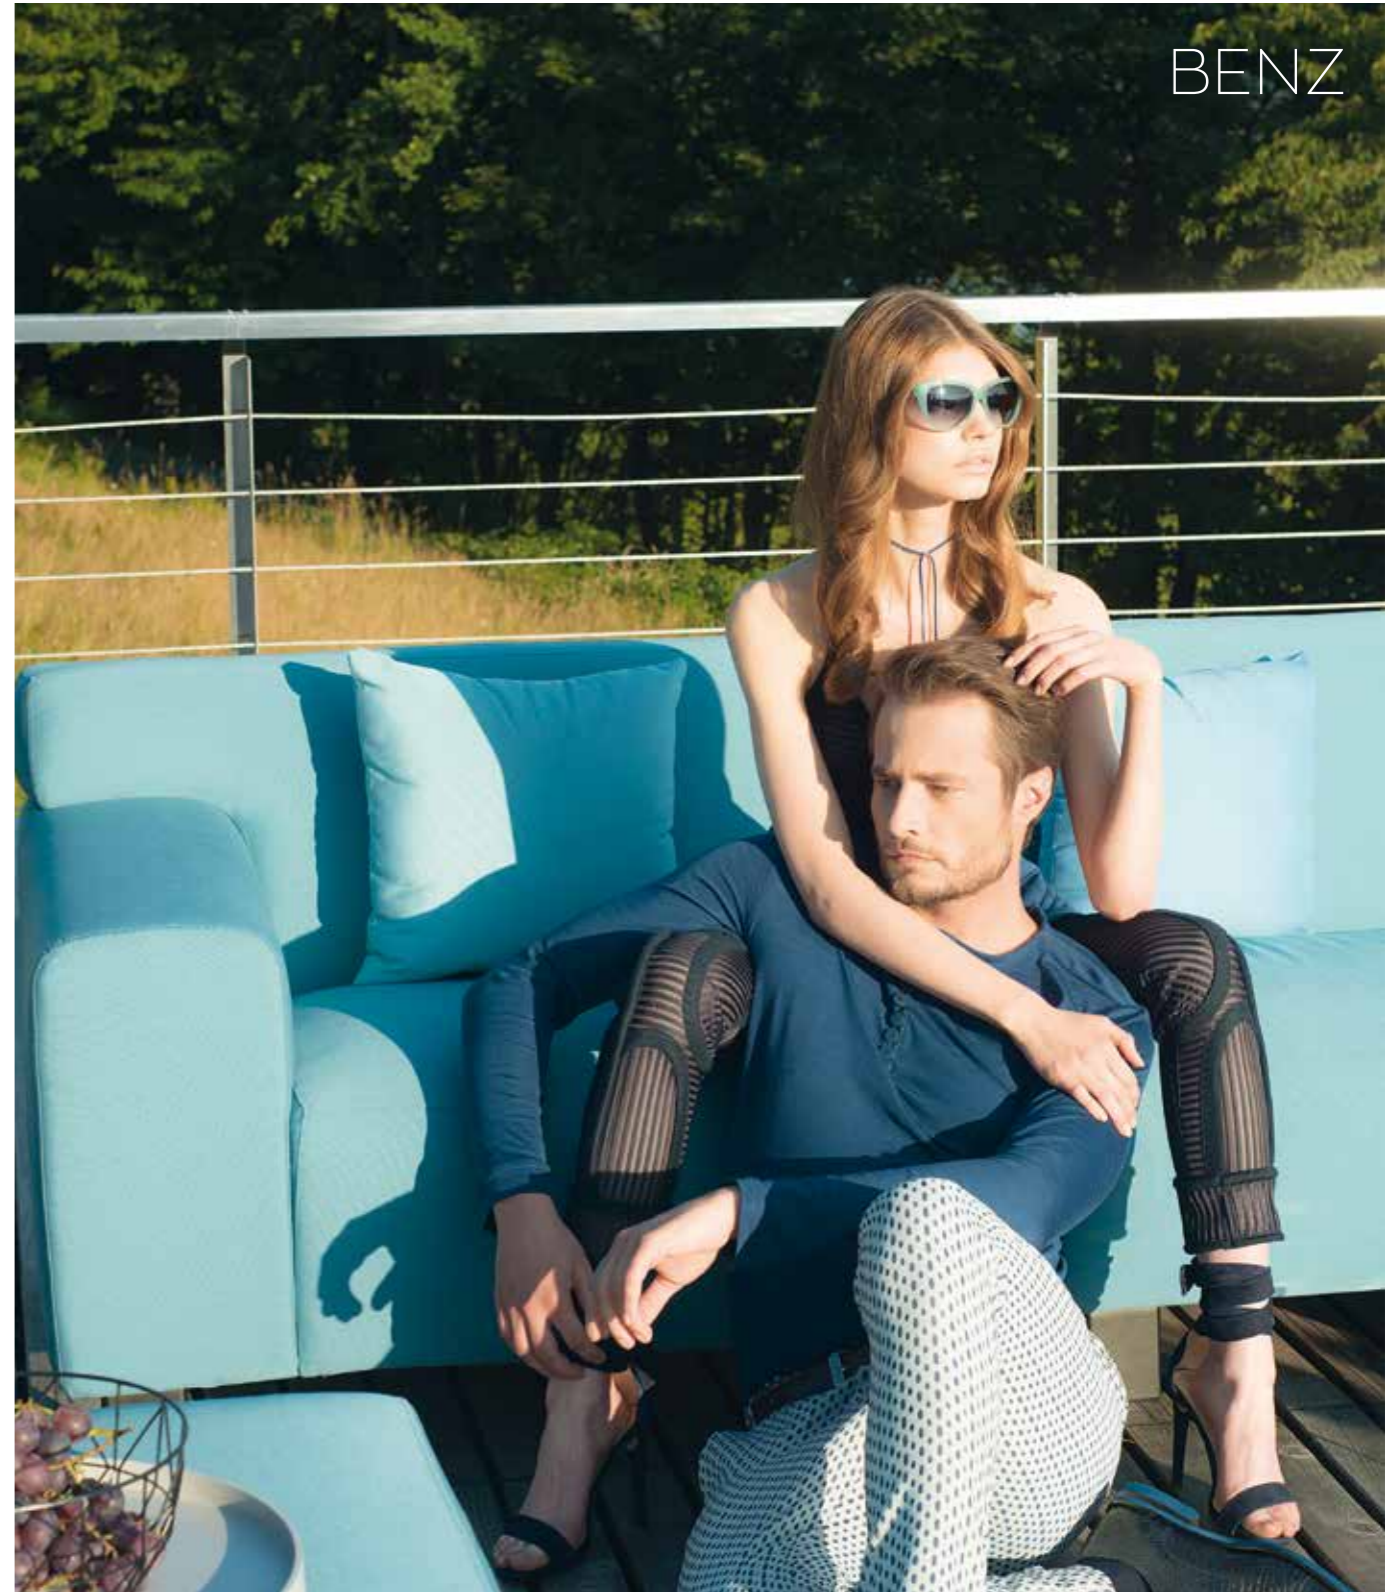

ACAPULCO

Who can remain indifferent to this collection?! The shapes, the finishing, the form.... It all creates a truly captivating impression. The comfort of this furniture is directly proportional to its appearance. Please note the sides - they are movable. You can place them on the floor and use them as pouffes, for sitting down. Or simply place them under your feet to make your rest on the sofa even more comfortable.

BENZ

BENZ

There are collections that will always generate admiration. Benz is one of them. Its simple, timeless form will never get boring, and will remain elegant forever. When used as an element of home interior design, it never looks heavy, thanks to its low backrest. Individual collection items do not need to be permanently connected, and in that case they can be set apart or repositioned as needed.

TULIP

Although the shape contains a slight reference to the design of the 1960s and 70s, it is in fact a distant source of inspiration. The modern, geometric shape of the leg is an attractive contrast to the softness of main body lines. The result is a visually pleasing form with a subtle vintage feel. The rather tall backrest ensures comfort. In the interior design process, it is worth considering a combination of two sofas instead of a sofa with armchairs.

NEO

NEO

An offer for enthusiasts of visually massive furniture. No unnecessary decorations. However, please note the asymmetrical sides, and the shape of backrest cushions overlapping with the sides. Neo is rather a large piece of furniture, requiring a little more space. It likes smooth fabrics, but also goes well with patterned materials. The modules can be set apart at any time, to change their arrangement.

VIGO

VIGO

A minimalist collection for people appreciating simple solutions. In the context of its modest design, it is particularly noticeable for the characteristic stitching. If you want to spice up its appearance, try a patterned fabric finish.

RINO

Simple, modern, unobtrusive design. The high metal legs add lightness to this item. Individual elements comprising the Rino corner sofa can be set apart and arranged opposite each other, for example, to create two sofas. It is a great solution when guests are expected.

WAVE

A collection that is perfect for smaller rooms or smaller gardens and terraces. The elements included in the collection can be used to create corner sets with different shapes, as well as sofas. They can feature a side panel or an open side, which also plays a role when space is scarce. Please note the small table. This convenient solution can easily replace a standard bench.

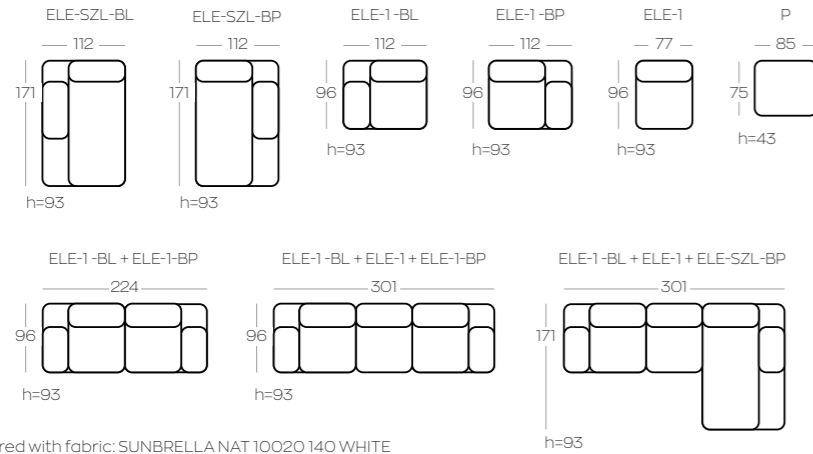

GOA

Cool metal touch as well as the softness and warmth of fabrics. Goa combines the opposites in an interesting way. Moreover, its visual qualities are also unique. Metal elements are available in black and grey colors.

All the outdoor- indoor collections from Bizzarto's portfolio - as presented in the catalogue - are manufactured using a technology that makes them suitable for outdoor use all year round.

TECHNOLOGY

The furniture is manufactured using „water goes thru” technology, which means that water (e.g. rain) can flow through it like through a strainer. This means that you can sit down on it shortly after the rain has stopped. The structure of the furniture and the components used in production make it resistant to various weather conditions - rain, snow, UV radiation, high and low temperatures.

UPHOLSTERY MATERIALS

We only select top quality fabrics for our furniture - i.e. solutions from the world's leading manufacturers specializing in the production of fabrics for outdoor use. In addition to compelling aesthetics and high durability, they are very easy to clean - dirt does not penetrate into the fabric, and therefore water is enough to wash it off.

100% OUTDOOR&INDOOR

Regardless of all the advantages that help our collections last 365 days in the garden, they are also perfect for indoor use. Their unique design and excellent comfort make them an attractive element of any modern living room or winter garden, for example.

High resistance to fading

Low and high temperature resistance

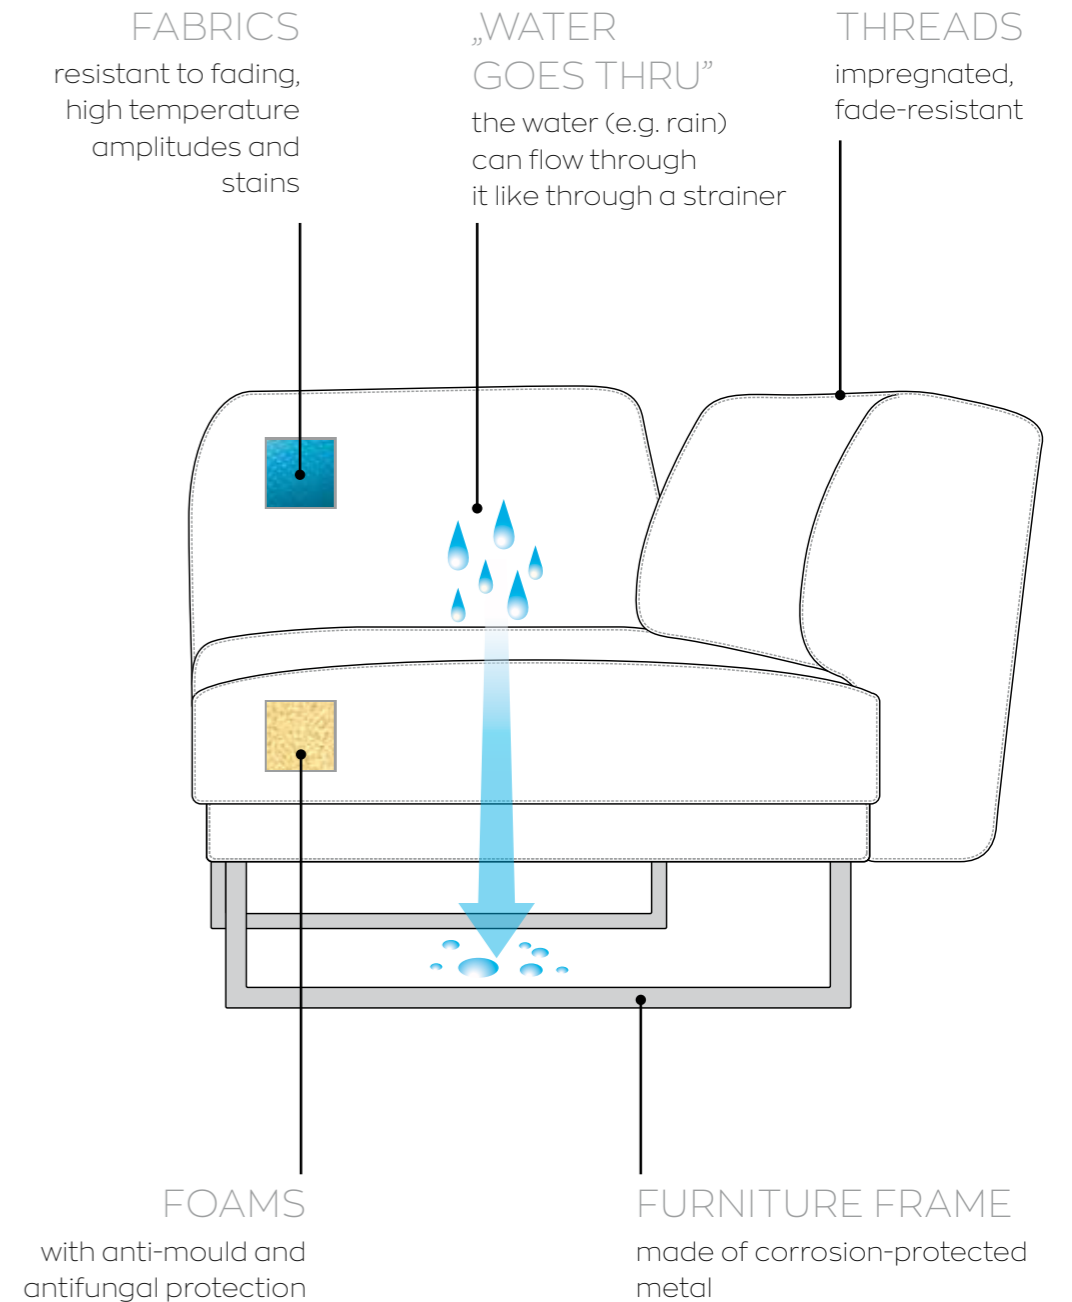

Antifungal, antibacterial and stain resistance

Water goes thru

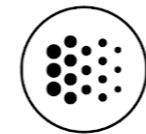

Easy to clean

WE USE **sunbrella™** TEXTILES TO ENSURE THE HIGHEST QUALITY OF BIZZARTO OUTDOOR&INDOOR COLLECTIONS.

Sunbrella® is founded on the belief that fabrics should be both beautiful and functional. Sunbrella® textiles are made with close attention to design detail, and engineered with robust performance characteristics that provide resistance to fading and degradation from sunlight and chemical exposure. The fabric is tactile yet durable, has industry-leading environmental characteristics, is easy to care for and offers long life – wherever it’s used. Each yard of Sunbrella® performance fabric is a product of a global support team committed to producing only the most exceptional performance textiles you can buy.

UV/FADE RESISTANT

WATER REPELLENT

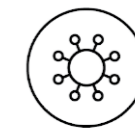

STAIN RESISTANT

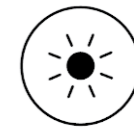

BLEACH CLEANABLE

BREATHABLE COMFORT

MOLD/MILDEW RESISTANT

SUN PROTECTION

LANDFILL FREE COMMITTED

For over 30 years, Sunbrella® has recycled its industrial wastes such as yarn and packaging. Today, every Sunbrella® manufacturing facility around the globe sends absolutely no waste to the landfill.

GREENGUARD CERTIFIED

Sunbrella® upholstery fabric has achieved GREENGUARD GOLD Certification. Sunbrella® upholstery fabrics are certified by GREENGUARD as contributing to healthy indoor air by being a very low emitting interior product.

SKIN PROTECTION

The Skin Cancer Foundation recommends Sunbrella® fabrics in shading products as an aid in the prevention of sun-induced damage to the skin as a part of a complete sun protection regimen, including regular use of sunscreen.

OEKO-TEX LABEL

A quality that meets human-ecological requirements. Awarded with the OEKO-TEX Label (Class II – products with direct contact to the skin), Sunbrella® fabrics are made without any identified harmful substance that could be a danger to health, skin and the environment.
